

COVID19 Update ^[1]

By Robin Olson on March 14, 2020

Dear Friends,

Due to the COVID19 virus, our town offices are closing, as well as the school system. As a business here in Sandy Hook for the past decade, we have been asked to make some changes to help keep our community healthy, which we are more than willing to make.

Because we are so careful in screening potential adopters, that requires we do home visits. Once approved, adopters come to our home, or the home of our foster family, to finalize the adoption. Clearly, doing this with a virus outbreak would put ourselves, volunteers and anyone we meet at some measure of risk. Effective at noon (March 14, 2020) we will be suspending our adoption program until further notice.

We will STILL BE HERE for anyone who needs cat behavior counseling, feline nutrition or wellness advice. **We will continue to network with our rescue peers to help find cats who need rescue an appropriate placement.** Behind the scenes, we'll take this time to work on some long overdue tasks, like update our web site and more, so stay tuned.

We will also continue to show off photos of our adoptable cats, along with any updates on adopted cats in their forever home. We'll tell some rescue stories or share some fun cat-centric tips to help you live better with your cats.

For now, we'll focus on the day to day care of our treasured foster cats, like Matilda. This poor, sweet girl has waited nearly two YEARS to find her forever home. It's heartbreaking to continue to make her and the others wait, too, but it's for the safety and benefit of our community.

Matilda still waits for her forever home. Photo courtesy: Dana Sharkey.

We need you by our side so we can continue to operate. We may need to do fundraisers for simple things, like food and litter, but we never ask unless we really need it.

We want to extend our love and support to all of you who are struggling and afraid. **We CAN and WILL get through this together.** Please offer to help your neighbors if they can't leave their home. Please don't be grabbing every item off a shelf if you already have enough. It's scary times. We really get it, but we can show the world how well we can work together in a compassionate, caring way for the benefit of others.
